THE OPPORTUNITY

Why footwear belongs in your benefits package

The average professional spends between £180 and £320 per year on shoe

maintenance. CalceoCura removes that cost and the time that goes with it, while ensuring your team steps into every client meeting with complete confidence.

Confidence at work

Presentation matters. Well-maintained footwear signals professionalism before a word is spoken.

Time returned

Free collection and delivery means zero disruption. Your team never has to leave the office or the house.

Real financial saving

At team rates, each employee's benefit is worth £840 or more per year. That is a meaningful, visible perk.

Talent retention

Unique, premium perks set your offer apart in a competitive hiring market.
